SOFTWARE EXPERIENCE

AudioEye - Remote   April 2022 - Present
Implementation Developer
- Assessed and remediated over 230 websites to be WCAG 2.0 AA compliant (accessibility), using Javascript.
- Outperformed the expected bi-weekly ticket average(80-120) by over 50 percent (166.2).
- Collaborated cross-functionally with the quality assurance team and assistive technology testers to achieve the most effective and efficient solutions.

Software Skills

HTML, CSS, JavaScript, Node, Python, Django, FastApi, Express, React, and APIs, SQL and NoSQL Databases
Fullstack Development, Backend Development, Slack, Notion, Google Suite, Jira.

PROJECTS

1. **All Trails (clone):** A clone of the all trails website built using Node JS, Express, and Mongoose.
2. **Service Record Keeper:** A CRM for vehicle repair shops to allow databasing of service records and inventory as well as a customer facing portal to share repair updates. Built using Django, Python, Postgres.
3. **Wayfarer:** Travel community website for users to share posts about their favorite locations around the world. Built using Django, Python, and Postgres SQL.

EXPERIENCE

Desmoto Sport - San Francisco, CA   April 2019 - September 2021
Technician
- Digitally adjusted engine management software using real time data.
- Performed diagnostics and repairs including CAN-BUS networks (using high level diagnostic equipment).
- Performed upwards of 10 engine rebuild projects spanning up to 40 hours of labor from removal to installation which include measuring and setting tolerances which in some cases need to be accurate to .000mm.

Pelham Industrial Group - Belchertown, MA   November 2017-April 2019
Service Manager
- Outperformed financial performance goals by roughly 15% by selecting vendors, subcontractors and determining appropriate mark-up.
- Organized all day to day operations including allocation of work and oversight of repairs and technicians.
- Communicated directly with customers, explaining repair estimates accurately and clearly to ensure that customer expectations are accurate and satisfied.

Mission (restaurant) - Newport, RI   September 2016 – March 2017
General Manager
- Oversaw daily operations coordinated directly with the ownership to execute & achieve major organizational goals.
- Successfully implanted a new point of sale system, resulting in increased gratuity which yielded improved customer and employee satisfaction.
- Managed a team of 9 people duties included: scheduling, screening and interviewing potential employees, training new hires, conflict mediation.

EDUCATION

General Assembly - Software Engineering Immersive - Dec 2021

Western New England College - Bachelors in Business Management and Leadership - May 2018
